Configuring PresenterCard for TurningPoint 2008

1 Open TurningPoint 2008, click **Tools** and select **Settings**.

2 Select **Response Device** from the left pane and scroll to **PresenterCard** in the right pane.

3 To the right of PresenterCard Device ID, click **[None]**.

4 Press **any button** on the PresenterCard to pair it with TurningPoint 2008.

5 Once the Device ID appears in the *PresenterCard Pairing* window, click **Pair**.

Configuring PresenterCard for TurningPoint AnyWhere

1 Open TurningPoint AnyWhere PC or Mac and select **Settings/Preferences** from the launchpad.

2 Select **Response Device** from the left panel and scroll to **PresenterCard** in the right panel.

3 To the right of PresenterCard Device ID, click **Change**.

4 Press **any button** on the PresenterCard to pair it with TurningPoint AnyWhere.

5 Once the Device ID appears in the *PresenterCard Pairing* window, click **Pair**.

Configuring PresenterCard for TurningPoint Cloud and TurningPoint 5

1 Select **Connections** from the left pane and scroll to **PresenterCard**.

2 To the right of PresenterCard Device ID, click **Change**.

3 Press **any button** on the PresenterCard to pair it with TurningPoint Cloud/TurningPoint 5.

4 Once the Device ID appears in the *PresenterCard Pairing* window, click **Pair**.

Changing the PresenterCard Channel

1 Press the **Channel button**.

2 Press the **Back** or **Forward button** to decrease or increase channel numbers.

3 Once the desired channel is visible on the display, press the **Channel button** to set the channel.
